## UX Strategy + Digital Experience Leadership + Creative Direction

**UX/UI Design + Art Direction + Front-End Development + eCommerce**

Creative and digital experience leader with 11 years of progressive experience across UX/UI design, creative direction, art direction, front-end development, eCommerce, and digital strategy. Built a digital creative team from the ground up, later integrating creative and UX and expanding leadership responsibilities to include eCommerce implementation. Currently lead an eight-person multidisciplinary team, managing both people managers and individual contributors. Combine hands-on design and technical expertise with strategic leadership to deliver digital experiences for global brands and enterprise eCommerce platforms.

## Career Highlights

- Built and transformed a digital creative organization, bringing creative design, UX, web development, and implementation together under one team.
- Led creative efforts supporting 222 eCommerce storefront launches and conversions in a single year during a major platform transition.
- Lead UX strategy, creative direction, design, development, and ongoing optimization of storefront themes supporting 400+ enterprise eCommerce sites.
- Reduced UX implementation time by an average of 32.5% across two launch types through process improvements while increasing overall output.
- Led major creative and digital initiatives for global brands including Nvidia, Apple, Airbnb, and FedEx, spanning UX strategy, design, development, and launch.

## Experience

**07.25 - Present  UX Strategy Manager**
